

NIPPLE DRINKERS

饮水乳头系列产品
Drinking nipple series products

鸡用不锈钢
饮水乳头
Stainless steel nipple for Chicken

鸭用不锈钢
饮水乳头
Stainless steel nipple for Duck

●用料讲究

外部壳体采用进口优质材料制作，内部阀杆采用进口优质不锈钢制作。
Materials standards
The outer shell is made of imported high quality materials, and the inner valve stem is made of high quality stainless steel.

●质量扎实

整个部件抗腐蚀性强，工作寿命长达十年以上。
Solid quality
The whole part is corrosion resistant and has a working life of more than 10 years.

●技术成熟

采用双层密封结构，密封更可靠，有效避免水源的滴漏以及由此造成对鸡舍环境湿度的影响。
Mature technology
Adopt double seal structure, seal is more reliable, effectively avoid the water leakage and the impact on the environmental humidity of the chicken house.

●应用方便

阀杆可以上下与水平360度范围内活动，适合不同饲养阶段畜禽的饮水需要。
Easy application
The valve stem can move up and down in a 360 degree range, suitable for drinking water needs of livestock and poultry at different feeding stages.

水线自动冲洗装置
Water line automatic flushing device

- 环保节水
If of water saving
- 清洁抑菌
Cleaning and bacteriostasis
- 经济可靠
Economic and reliable

德天源自主研发设计，可有效防止生物膜、水垢的产生，保持水质清洁，减少养殖过程中疾病的发生。具有清洗效率高，自动化程度高等特点。
Detianyuan self-developed imported automatic water line washing device can effectively prevent the generation of biological film and scale, keep the water clean and reduce the occurrence of diseases in the process of breeding. It has the characteristics of high clearing efficiency and high degree of automation.

- 水位报警
Water level alarm
- 主供水口监控
Main supply port monitoring
- 水温自动调节
Water temperature detection and regulation
- 历史记录
Historical record
- U盘存储
U-disk storage
- 控制增压泵
Controlled increase pump
- 辅助计量用水
Auxiliary measuring water

●一键冲洗/停止
随时可对整体水线进行逐条冲洗
One key wash / stop
The whole water line can be washed one by one at any time

●自动/手动模式
自动模式：控制器依据预设模式定时开启冲洗
手动模式：可自由开启任意水线冲洗
Automatic / manual mode
Automatic mode: the controller can start flushing according to flushing mode
Manual mode: can open any water line freely

●加药模式
通过设定加药后冲洗启动延时
到时自动冲洗水线，防止药物残留
Dosing mode
By setting the flushing start delay after dosing
Automatically flush the water line to prevent drug residues

调压器系列产品
Regulator series products

- 进口材质
调压器阀体采用进口ABS原材料加钢打透，环保无毒，耐高温、耐压，使用寿命长。
Imported material
The pressure regulator valve body is processed with imported ABS raw materials, which is environmentally friendly and non-toxic, high / low temperature resistant, pressure resistant and long service life.
- 使用方便
水压大小由清晰的水位管显示，大水量在线冲洗，维护简单。
Easy to use
The size of the water pressure is shown by a clearly regulator water level tube, large amount of water online flushing, simple maintenance.
- 调节灵敏 · 稳定可靠
可延长饮水系统的使用寿命，节约水源，减少环境污染。
Sensitive and stable adjustment
It can prolong the service life of drinking water system, save water and reduce environmental pollution.

- 调压器圆头
Round turns round for regulator
- 调压器方头
Square turns round for regulator
- 调压器堵头
End caps for regulator

水线自动杀菌清洗机
Waterline auto sterilization cleaning machine

- 高压脉冲
High voltage pulse
- 臭氧杀菌
Ozone sterilization
- 冲洗彻底
Rinse thoroughly

水线自动杀菌清洗机：自动产生高压混合水、气体，脉动式工作；自动产生臭氧，氧化管壁污垢和杀菌消毒；冲洗效果更好。一键式操作，冲洗和消毒程序化完成。冲洗迅速彻底，省时省力省心。

Waterline automatic sterilization cleaning machine: automatic production of high pressure mixed water, gas, pulsating work; Automatic generation of ozone, oxidation of pipe wall dirt and sterilization; Better rinsing. One-button operation, programmatically complete flushing and disinfection. Rinse quickly and thoroughly, save time, effort and worry.

- 广泛的消毒杀菌效果
Special effect on disinfection and bacteriostatic effect
- 对大肠杆菌杀菌特效
Special effect on disinfection of bacteriostatic col
- 氧化有机物和生物膜，达到粉碎的效果
Oxidation of organic matter and biofilm, to achieve the effect of powder
- 自动分解为负氧离子
Automatic decomposition to negative oxygen ion
- 反应迅速，迅速溶入细胞壁，破坏细菌、病毒等微生物内部结构
The reaction is rapid and can dissolve into cell wall rapidly destroy the internal structure of bacteria, viruses and other microorganisms

接水杯系列产品
Poultry drinking cup series products

水线悬挂升降系统
Water line suspension lifting system

●通过绞车升降系统可以方便的调节水线的高度和水平度。
Through the winch lifting system, the height and levelness of the waterline can be easily adjusted.

管接头系列产品
Pipe connection series products

水线水位组件
Water level components

- 德天源自有进口注塑设备，高精密度模具，恒温生产，品质有保障。
Detianyuan own imported injection molding equipment, high precision mold components, constant temperature production, quality is guaranteed.
- 显示屏采用高透明、高韧性和耐冲击的材料制作，坚固耐用。
Display tube is made of high transparency, high toughness and impact resistance material, which is strong and durable.
- 观察水位高低更清楚。
Watch the water level more clearly.
- 先进设计，拆卸清洗更方便。
Advanced design, disassembly and cleaning more convenient.
